

Quarterly Newsletter 2- 2023

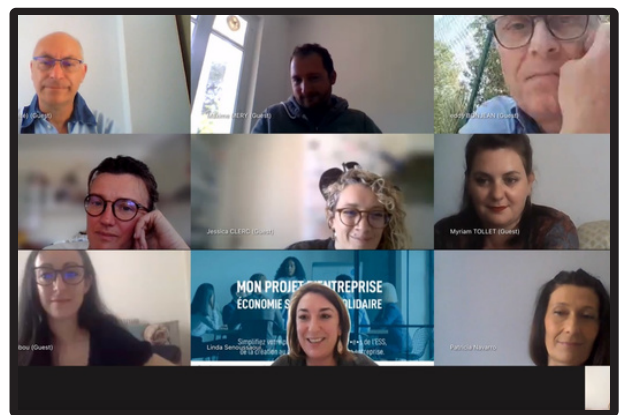

Aaaaaand it's a WRAP!

Kanthari's one-year program for change makers - 13th generation- is now over. Our batch virtually celebrated our graduation and we took the opportunity to thank the kanthari staff, mentors, and supporters. Propolis is so grateful for such a unique and special adventure, that made this organization possible to exist.

PACA Power

Propolis is a proud current participant of MPE, Parcours Creation, a Provence-Alpes-Côte d'Azur (PACA) intensive support capsule in 7 weeks to help us build Propolis in France and test upcoming programs, refine our strategy, be advised by local experts, and develop our network. We will pitch the upcoming projects to a jury of professionals on 11th July. Wish us luck!

In the News!

Each week, the editorial staff of Le Petit Journal Bombay presents a selection of online articles, evoking India. The brilliant journalist Isabelle Bonsignour [published an article](#) on the results of our Propolis tour in South India. Have a nice read!

What is coming next for Propolis?

- 1- Now that the Indian pilot program has been tested, we wish to continue to develop activities in India with the five most needed organisations.
- 2- We are also in the process of launching Propolis in France, preparing to offer a 16-week support program to a French hospital which could possibly be our first pilot project in the country, to work with chronic pain patients. Send us good vibes for this to be accepted :)
- 3- Finally, we are preparing a user manual for professionals.

As we anticipate some challenges in adapting the program in France, we are currently:

1. looking for qualified local partners who believe that communication is the key to the fight against taboos
2. and looking for financial partners.

If you like our upcoming projects and you want to support us, we are also looking for an IT expert that can help us to update our website in French. We can further discuss here: charlotte@connectpropolis.org
