

Propolis in residence with "les travailleuses du texte"
July, 2023

Quarterly Newsletter 3- 2023

Radio Ga Ga!

Buzzing news in the Propolis world.

We're launching **Propolis Talk** 🗣️🐝 a short, intimate and taboo-free conversation between Charlotte - founder of Propolis - and social entrepreneurs, visionaries, and activists, who are working to create radical change in their communities.

You can find the latest episodes of Season 1 in the link below:

We cannot wait to hear your feedback.

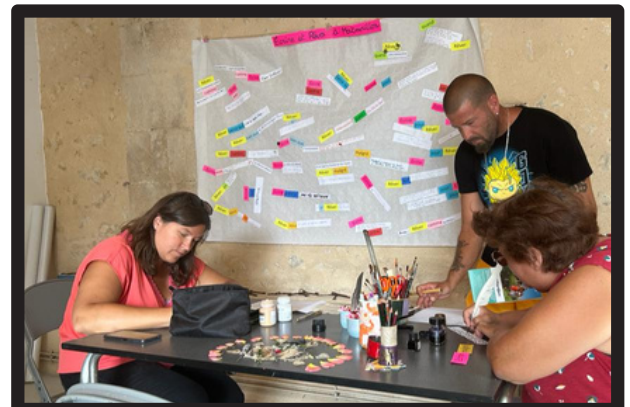

Some kind of magic

Last July, Propolis embarked on a thrilling journey by joining the incredible women's collective known as "**Les travailleuses du Texte**" in Montmorillon, a charming commune nestled in central-western France, often celebrated as the "City of Writing." 🇫🇷

The week has been nothing short of transformative as we delved into the rich world of communication tools and strategies. It was an immersive experience where we honed our skills and explored innovative ways to open up meaningful conversations.

Together with fellow passionate writers and advocates, we discovered the power of words and narratives in building bridges, fostering understanding, and effecting positive change.

Don't stop me now!

We are absolutely thrilled to share some exhilarating news with all of you today! Propolis is taking an enormous stride forward on our incredible journey, and we couldn't be more excited about the boundless possibilities that lie ahead.

It is with great pride and joy that we announce our approved status as an official association. This achievement marks a significant milestone in our journey and opens up a world of opportunities for us.

We want to extend our heartfelt gratitude to everyone who has supported us along the way, and without whom, this accomplishment would not have been possible.

What is coming next for Propolis?

1 We are delighted to announce that our upcoming 16-week support program, set to kick off in January 2024 at a prominent French hospital, is on the horizon! This is a significant step forward in our mission to make a positive impact on those in need. We'll be collaborating closely with dedicated medical staff who are providing care to patients battling chronic pain.

Together, we aim to provide essential support and improve the quality of life for those facing this challenge.

2 But that's not all!

We are currently pitching for not one, but **two more projects**. One focusing on elderly and another on masculinity.

We are crossing our fingers and giving it our all to bring these projects to fruition. Your support means the world to us, and we're grateful to have you by our side as we continue to reach for the stars. 🙌

PROPOLIS TALK 🗣️🐝, EPISODE 1

In the first episode of Propolis Talk 🗣️🐝, you will hear Robert Malunda, a founder and visionary blind man.

Via social media, we received a lot of very relevant questions about being blind, such as how do blind people imagine colors, how they date and if they wish to see again.

Hope you will enjoy this episode as much as we did:
